

PAVILION  
WINERY

**Pavilion Philosophy:**

The founders of Pavilion believe that we can put to work our winemaking skills to create some of the best value Napa Valley wines. We believe that decades of Napa winemaking experience will allow us to create a better bottle of wine at a better price point than what's generally available from Napa Valley.

**Products:**

Our current releases include our Napa Valley Chardonnay, Napa Valley Merlot, and Napa Valley Cabernet Sauvignon. You will find our wines to be fruit forward, well balanced and pleasant to drink.

**Winemakers:**

Our wines are carefully crafted by Brian Mox and Larry Levin, both who are among the most experienced winemakers in the Napa Valley. While completing a degree at MIT in 1989, Brian worked his first crush at Hargrave Vineyards on Long Island. Two years later he arrived in Napa to work at Stag's Leap Wine Cellars and then Pine Ridge Winery. He was pulled back to the academic world in 1996 when he enrolled at UC Davis to pursue a PhD. His passion to be close to the grapes cut short his program when he returned to Napa where he has since been in the winemaking role for multiple Napa wineries including Laird Family Estate (as assistant to Paul Hobbs), Chrichton Hall, Napa Redwoods Estate, Voss, Stonegate and Etude.

After completing his Enology degree at UC Davis, Larry spent seventeen years at Dry Creek Vineyard where over 18 vintages he produced more than 15 varietal wines. For the previous nine years Larry was head of winemaking at Icon Estates where he oversaw the Franciscan, Mt. Veeder, Robert Mondavi, Estancia, Ravenswood, Quintessa and Ruffino brands.

**Production Facility:**

Pavilion Winery produces its wines at a state-of-the-art Napa Valley production facility very near Highway 29.

**Fruit Sources:**

The company has unique and strong relationships with various Napa Valley growers. These relationships gain the company access to very high quality fruit and wine.

**Aging:**

Pavilion wines are aged in American and French barrels and in stainless steel tanks, depending on the varietal and attributes the winemakers aim to impart in the wines.
